A colourful view awaits

As the trend towards coloured window frames continues to increase in popularity, we're committed to helping you meet customer demand.

Each of our profile systems are available in a range of the most popular colours, from the traditional and timeless elegance of White and Golden Oak, contemporary cool greys and calming neutrals in smooth and woodgrain finishes.

Our fully stocked colour range includes cills and ancillaries and is available for delivery on your next order, helping you keep one step ahead of the competition. A selection of colour options are also available foiled on both sides to allow customers to blend their interior with their exterior and also have a choice of substrate colour.

We also guarantee colour matching across all of our PVC-U products. So if you're looking for colour perfection, you can rely on Eurocell.

36 COLOUR OPTIONS

Our range of 36 colours has been carefully chosen to create four stunning collections that will allow you to offer both traditional and modern colour options to your customers.

To support you in offering a fast and efficient service, the most in demand colours are available from stock on your next order, and all other foil colours can be made to order in 20 days.

All others foils fall into standard category

Logik Chamfered Stone Grey

Exclusive style

Our two new exclusive colours Silk Grey and Stone Grey are warm neutral shades that complement almost any style and colour building. The heavy woodgrain texture enhances the warmth of the shades beautifully and adds a touch of elegant character.

Here at Eurocell we are committed to developing a range of colour propositions that are reflective of the latest style trends and allow you to delight customers by meeting their requirements.

LOGIK

It's no surprise that our Logik system is top of the list for more and more fabricators, with three profile styles to suit any building.

The 70mm front-to back dimension allows easy replacement of old timber window and door frames along with energy-efficient performance and classic looks.

ICONIQ

Iconiq aluminium roof lantern combines engineering excellence with unmatched innovation and delivers the perfect balance of style, performance and simplicity.

Iconiq's sleek, modern design adds a stunning visual element to any home or commercial project. It complements both modern and traditional interiors and fits seamlessly into any new build or renovation project.

With a unique GRP ring beam, Iconiq offers superior thermal efficiency and with a high strength to weight ratio is the largest lantern available on the market.

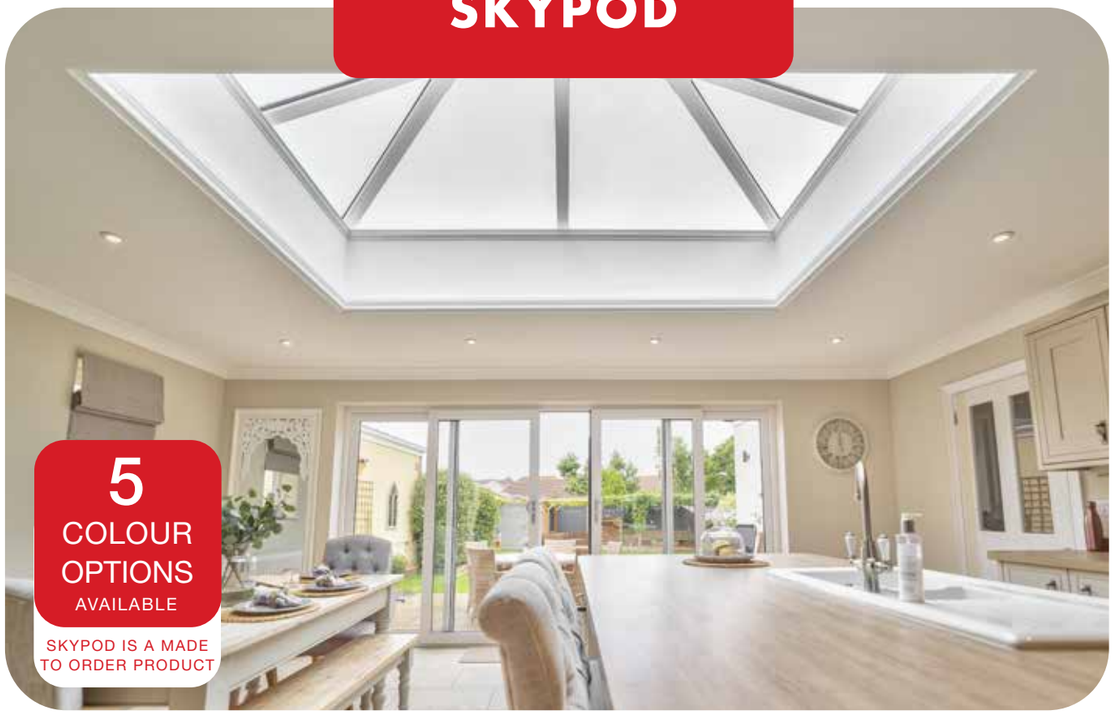
From the Monochrome range

WHITE | ANTHRACITE GREY | BLACK

ANY RAL

Available sprayed in any RAL colour. Extended lead time apply, please contact for details.

SKYPOD



Skypod lantern roofs provide an innovative alternative to aluminium skylights or conservatory roof systems that are a beautifully cost-effective way to add height and space to a room.

They're versatile enough for most situations, with a range of sizes, colours and finishes and don't just provide stylishly contemporary looks, but excellent energy efficiency, too.

The Skypod range of pitched lantern roofs for flat roofs extends from compact designs to those offering larger glass areas and clean sight lines and they're designed to be fast and easy to install.
